Utilization Management – Clinical Criteria and Availability of Clinical Criteria

The Utilization Management (UM) review process uses a wide range of criteria, guidelines, and reference tools to assist in determinations of benefit coverage, behavioral health needs and medical appropriateness. Supporting clinical and benefit information, relevant to each case will be reviewed when making medical necessity coverage determinations.

All criteria are reviewed and approved at least annually. Only appropriate clinical and behavioral health practitioners with relevant experience are involved in the development, adoption and reviewing of the criteria. The criteria must comply with Medicare, local and national coverage determinations, and relevant Medicaid requirements.

Approved Clinical Criteria for Utilization Management Decisions

- CMS criteria: National Coverage Determinations(NCDs), Local Coverage Determinations (LCDs) and Local Coverage Articles (LCAs), Medicare Benefit Policy Manuals
- State Medi-Cal Guidelines
- Health plans' Evidence of Coverage (EOC), Medical Policy or Clinical Guidelines
- National/ Specialty Guidelines, e.g.:
 - Milliman[®] Care Guidelines (MCG)
 - o American College of Radioloty (ACR) Appropriateness Criteria
 - o InterQual
 - o AHA (American Heart Association)
 - ACC (American College of Cardioloty)
 - National Comprehensive Cancer Network (NCCN)
 - U.S. Preventive Service Task Force (USPSTF) Recommendations Grade A, B & C
- Government Agency, Medical Society and other Authoritative Publications, e.g.:

• Preventive Health and Clinical Practice Guidelines:

Heritage Provider Network reviews and adopts evidence-based Clinical Practice and Preventive Health Guidelines promulgated from peer reviewed sources for diseases and health conditions identified as most salient to Heritage Provider Network members. Clinical Practice Guidelines are used in the provision of preventive, acute, chronic medical and behavioral health services to improve the delivery of health care services to members. The most current list of Clinical Practice and Preventive Health Guidelines adopted by Heritage Provider Network are available for download from the links provided below.

Availability of Clinical Criteria

Upon request, medical groups will make available all criteria, clinical review guidelines and medical review polices utilized for decision making to members and practitioners. With each determination made by the medical group, members and providers are notified in writing of the process for requesting a free copy of the criteria guideline or policy used to make the determination.
